

PRIORITY / ACTION	LEAD
1. Raise awareness and improve access to primary care services	
Distribute Safe Surgeries information and reception posters to surgeries	VSI Alliance
Develop a training resource for practice managers raising awareness of the asylum system, the particular health needs of people seeking sanctuary and highlighting some of the barriers people seeking sanctuary face when accessing primary care services.	St Augustine's Centre
Design, print & distribute cards for people seeking sanctuary to take with them to the GP, explaining their right to be registered. COMPLETED	Healthwatch Calderdale
2. Develop peer support/health befrienders scheme	
Recruit and train people with lived experience of the asylum system to become health befrienders and provide peer support to others, helping them to access primary care and other health and wellbeing services.	St Augustine's Centre
3. Collect stories to promote voices of those with lived experience and to inform work with CCG, Healthwatch, etc	
Support people with lived experience of the asylum system to be able to confidently explain their stories and experiences of the health care system and services to others.	St. Augustine's Centre
Collect stories in various formats including; written, audio, and visual to help promote the voice of people seeking sanctuary, and to support statutory services to understand their experiences including any issues faced helping to advocate for change where needed.	Northern Broadsides Healthwatch Calderdale St. Augustine's Centre
4. Improve access to mental health support and services	
Improve access to mental health services for people seeking sanctuary.	St Augustine's Centre
Work with and help influence existing mental health services to better understand and meet the need of people seeking sanctuary.	St Augustine's Centre
Regular workshops at St. Augustine's Centre around creativity, self-confidence, and stress management.	Northern Broadsides
